

LINCOLN NEWS

State Engineer Will Save \$75,000 Annually by New Type Bridges—40 Tons of Auto Plates

(By Special Correspondent)
Lincoln, Nebr., September 22—State Engineer Johnson has a new plan to save Nebraska \$75,000 annually. This plan has been put into operation since Mr. Johnson took charge of his department last January. On the North Platte bridge, which is 700 feet long, a saving of nearly \$10,000 was accomplished. This was done by adopting a camel-back type instead of a straight top truss. As the last legislature appropriated \$150,000 for the current biennium state aid of bridges, it is estimated that fully 30 per cent will be saved in the placing of such bridges, which will make the said appropriation accomplish a great deal more work in that line.

New and splendid quarters have been secured for the new supreme court commissioners. This commission consists of Grant G. Martin, of Lincoln, W. C. Parriott of Auburn and F. O. McGill of Beatrice, all of whom are now residents of the capitol city. The new quarters are on the third floor of the State House, in the rooms formerly occupied by the state engineer.

The automobile department of the office of Secretary of State Charles W. Pool will move into new quarters in the basement of the State House within a short time. This move was made necessary to do the work of this department, and to accommodate the storing away of about 70,000 automobile plates for use in 1916. These plates come in packages containing 100 each, the packages weighing about 125 pounds. The total number to be stored in December, ready for use the first of January, will consequently weigh more than forty tons.

Of nearly four thousand foreign and domestic corporations doing business in Nebraska, who yearly pay an annual occupation tax, about 650 are delinquent on their tax for 1915 at this date. Letters are being prepared by Secretary of State Charles W. Pool notifying these corporations of their delinquency and the addition of a 15 per cent penalty for nonpayment of occupation tax. These letters will be sent out to the corporations within a few days.

WANT AN EXPERT

Heating Plant Committee Thinks Expert Should Be Secured to Draw up Plans

\$250 would pay for the services of an expert heating engineer to draw up the necessary plans for the installation of a municipal heating plant in Alliance, according to the committee appointed by Mayor Romig to investigate the matter, which committee reported their findings at a special meeting of the city council Monday night.

The plan is to have the expert come here, determine the possibilities of the plant, make plans and specifications, and estimate the cost. It would seem that this is the best plan, as there would then be no guesswork, and the committee and the council would know exactly how to proceed with the matter. Should the concern making the plans secure the contract, the \$250 would be deducted from their bill. Already the preliminary plans of the streets through which the mains would pass have been sent to the company whose expert may be employed to investigate the matter, together with a list of the probable customers. From these statistics, the expert will make a preliminary estimate. Then the committee will make a thorough canvass of the town and determine what business men would connect with the steam main, either when it is first installed or after it has been proven a success.

After this work has been done, all the reports will be submitted to the council, and definite action will be taken at once. The plan is to get to work as soon as possible if the plan is feasible, so that the plant may be

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take tablespoonful of Salts if Back hurts or Bladder bothers—Drink lots of water.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have aching pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

put into use this winter. The committee is composed of F. E. Reddish, R. M. Hampton and A. D. Rodgers. Mr. Reddish recently returned from a trip on which he made an investigation of heating plants, and he returned greatly enthused over the project. From present prospects, it appears very much as though Alliance would be the possessor of this greatly needed improvement—an improvement that should pay good dividends to the city, and at the same time save the property owners considerable money by cutting out their coal bills and assuring them good, clean heat, at a nominal cost.

RETURNED WITH PRISONER

Sheriff Cox Brought Brenkley from East St. Louis Last Friday Morning

Sheriff Cox returned Friday morning from East St. Louis, where he had gone the week before to get Charley Brenkley, who made his getaway shortly after he had robbed the home of Ernest Becker east of town on August 22, securing a gold watch and chain, and \$3 in money. Brenkley accompanied Sheriff Cox without protest, and on Monday of this week, at his hearing before Acting County Judge Broome plead guilty. A short time before then he told County Attorney Baye that he had "soaked" the stolen watch and chain in a pawnshop in Lincoln, "just across from the postoffice."

Brenkley's liberty was very short. From Alliance he went to East St. Louis, where he had said he had a "girl". After this was learned, it was only a matter of sending a description and photograph to the East St. Louis officers, who had Brenkley collared shortly afterward. Requisition papers were immediately issued, honored, and Sheriff Cox made the trip to St. Louis and got the prisoner. In the district court Monday Brenkley was given a sentence of from one to seven years in the state penitentiary on the charge of grand larceny.

Tired, Aching Muscles Relieved
Hard work, over-exertion, mean stiff, sore muscles. Sloan's Liniment lightly applied, a little quiet, and your soreness disappears like magic. "Nothing ever helped like your Sloan's Liniment. I can never thank you enough," writes one grateful user. Stops suffering, aches and pains. An excellent counter-irritant, better and cleaner than mustard. All druggists, 25c. Get a bottle today. Penetrates without rubbing.

ALIENS' NIGHT SCHOOL

Established by Police Matron Sharp at Central School for Greeks and Others

Under the supervision of Police Matron Betty Sharp there has been opened an aliens' night school in the Central school building, the first lesson being given Monday night. The work has started off in good shape, and competent instructors have agreed to donate their services. The courses thus far are in reading, writing and arithmetic, and if sufficient interest is shown, there will probably be additional classes.

This work has been under contemplation by Mrs. Sharp for the past month. She has seen the good that can be accomplished by such a school if the Greeks and other foreigners will show the proper interest, which they surely should do when it costs them nothing and is strictly for their benefit. Colored people are also given instruction. There are a number of foreigners in this section, working at different trades, and it is thought that as soon as they all learn of the new school it will be well patronized.

TO HYANNIS TOMORROW

Special Train Has Been Chartered—Leaves at 8 O'clock

At 8 o'clock tomorrow (Friday) morning, the special train will leave for Hyannis, loaded with those who are going to that city to attend the Home Day celebration. On the return the train will leave Hyannis at 7 o'clock by their time, or 6 o'clock by Alliance time. The program is a dandy and will furnish plenty of amusement for all who attend. Hyannis puts on a "real" wild west show which in itself is worth going to see. There are plenty of fake wild west shows on the road now, but the real article is getting scarcer all the time. Reports are to the effect that the old town is going to be "wide open" all day. Get up early in the morning so you won't get left when the train leaves Alliance.

Case Transferred

The case of Mary A. Kinsley vs. the Chicago, Burlington & Quincy railroad company, which was instituted in district court a few weeks ago, has been transferred to the United States district court, and will likely be tried at Chadron, but owing to a crowded docket will probably not come to trial before next year. The transfer was asked on the ground that the action is one between citizens of different states and the request came from the attorneys for the company.

Will Represent County

Miss Doris Young, daughter of Supt. E. E. Young, has been appointed by C. A. Newberry as maid to the queen of the Ak-Sar-Ben carnival at Omaha this fall, to represent Box Butte county. The appointment could not have been bettered, as Miss Young is one of the prettiest and most popular young ladies in this section.

Able to Be Up

After being pinned underneath an automobile more than four hours, it was not thought that Philip Nohe, his daughter, Lucile, and sister-in-law, Mrs. J. A. Waldron, would be

able to be around for two or three weeks. But the first of this week they had recovered sufficiently that they were able to walk, although somewhat handicapped by their bruises. Mr. Nohe's left arm still gives him some pain at times, and he has not yet regained full use of the member. Lucile started to school Monday morning, but both her ankles are not yet healed. Mrs. Waldron's left arm, which was broken, is mending nicely, but it was bruised in so many places near the break that it will require more time than usual for it to heal completely. One thing that retards the healing of the wounds on all three is the fact that the machine lay on them for such a length of time that the blood in the injured members had stopped circulating below where the weight rested.

CLASSES ORGANIZED

High School Organizes Classes and Elects Officers for the Coming Year

The high school classes have organized and elected their officers for the coming year, as follows:

Seniors—President, Carl Powell; vice president, Janet Grassman; secretary-treasurer, Freda Corbett; athletic representative, Ruth Nation; sponsor, Miss Canfield.
Juniors—President, Oral Harvey; vice president, Thresa Morrill; secretary-treasurer, Mabel Grassman; athletic representative, Lester Harvey; sponsor, Miss Wilson.
Sophomores—President, Ralph Oeder; vice president, Ethal Clary; secretary-treasurer, Noel Young; athletic representative, Homer Barnes; sponsor, Miss Isabelle Gabus.
Freshmen—President, Walter Williams; secretary-treasurer, Morris Nelson; athletic representative, Ray Butler; sponsor, Mr. Sockdale.

Pimples, Skin Blemishes, Eczema Cured

No odds how serious, how long standing your case, there's help for you in every particle of Dr. Hobson's Eczema Ointment. It wipes out all trace of your ailment, and leaves your skin clean and soft as a child's. Hundreds of users have sent voluntary letters of thanks. Just try one box. It will mean freedom from suffering and embarrassment.

MORE EXAMINATIONS

Civil Service Tests Coming Thick and Fast

Civil service examinations are coming thick and fast these days, and there are plenty of opportunities in nearly all lines. During October, from the 5th to the 20th, there will be held numerous tests, among which will be for chemists, at a salary of \$1,200; public health statistician, at \$2,500; library assistant at \$720 to \$1,000; field assistant in marketing investigations at \$1,800 to \$2,400; ship draftsman at \$3.28 to \$4.48 per diem; aeronautical mechanical draftsman; junior civil engineer and junior mechanical or electrical en-

Bookkeeping Economy

Economy is a forceful word in modern business. Manufacturers and dealers—business men in every line are trying to cut down expenses.

You realize the advantage—the necessity—of controlling your accounts. And if you will consider the investment of several thousand dollars in equipment that will lower your operating or manufacturing costs 5 per cent, surely you will be interested in a proposition that will lower your bookkeeping expense from 25 to 75 per cent, on only a small investment.

That is what a Burroughs Figuring Machine will do for you. The Burroughs handles all kinds of figure work—even posts direct to the ledger, adding debits and subtracting credits, automatically computing the new balance. You can use it on

pay roll and cost work, statement work, in fact on any kind of bookkeeping.

If you are handling your figure work by the slow pen and brain method you surely should learn how much more economically you can do the work with a Burroughs. Remember, the Burroughs is so simple to operate that any one in your office can figure with it. It handles figure work faster than any bookkeeper can do the work by pen and brain. Accuracy is assured; the machine can't make a mistake.

Next time the Burroughs man is near let him demonstrate a machine on your work. Drop a post card to our Grand Island Office, for full information (and easy terms) or write direct to our main office at Detroit, Michigan.

Biliousness and Constipation

It is certainly surprising that any woman will endure the miserable feelings caused by biliousness and constipation, when relief is so easily had and at so little expense. Mrs. Chas. Peck, Gates, N. Y., writes: "About a year ago I used two bottles of Chamberlain's Tablets and they cured me of biliousness and constipation." Obtainable everywhere.

YOU LABORING MEN: If you can possibly spare \$10, and see your way clear to paying in \$5 per month, why not make a little easy money by buying a lot in FAIRVIEW Addition on Wednesday, October 20th, 1915. A lot that you can probably buy there on this date for \$250 or \$300 will undoubtedly jump right up to \$600 or \$700 within a year. Just price lots, even further out, and see what they are held at. There isn't a finer location in the city of Alliance than FAIRVIEW Addition. Crossings and sidewalks; electric lights and water mains as well as sewer connections will all run out there as soon as there is a demand. In fact, the water line runs right by the addition now while the sewer, walks and lights, are only a block or so away. There is not another section of this fast growing metropolis that is so pleasant, so desirable and that can be so nicely improved and arranged as this FAIRVIEW Addition. This section could have been sold off four or five years ago had the association been in shape to have turned them upon the market. However, it is now in great demand and if you buy a lot there on Wednesday, October 20th, for less than \$400, you will get a bargain that will make you

Office blanks and blank loose-leaf books for sale at The Herald office, Phone 340 and a Representative will call.

It's Your Convenience We're Looking After

We take a personal interest in every customer that comes to the store, whether it is man, woman or child. We're just as careful to see that a purchase is satisfactory if it is for 5 cents as we are if it is \$10. That's the way we feel about the matter, and we want you to know that it is our greatest desire to see every customer leave the store satisfied.

At Our Soda Fountain

you'll find the proper drinks for the proper weather—if the weather's cold we have hot drinks—if it's hot we have cold drinks and ice cream, so that you're always sure of finding what you want. You'll find our store a delightful place to hold your theatre party. Delicious sandwiches and bouillions of all kinds—to suit every "taste".
